BRAINTEASERS

Work this out as you read.
Be sure you don't read the bottom until
you've worked it out! This is not one of
those waste-of-time things. It's fun...
First of all, pick the number 1 to 7 of the
week multiply this number by 2, just to
be bold.
Add 5. Multiply this number by 50. I'll
wait until you get a calculator... If you
have already had a birthday this year add
1752... if you haven't, add 1750... now
subtract the four-digit year that you were
born e.g. 1978(if you remember!) you
should have a three-digit number:
The first digit of this was your original
number the next two is your age.
